# OFFSHORE VOYAGER

Yes. Size does matter. The Offshore Voyager is your answer for extended excursions and overnight adventures on large bodies of water. An industry-leading beam width of 10'6" and a bottom width of 10' combine with prominent 33' and 35' model lengths to create a substantial foundation. The Offshore Voyager's spacious cabin and expansive aft deck provide the ideal balance of comfort and functionality. The Offshore Voyager's unsurpassed quality, strength and exceptional ride are just what you would expect from its thoroughbred lineage and North River's commitment to excellence. Dominating the heavy gauge aluminum boating industry over three decades is liberating for the end user. A copy never rivals the original.
